Work Experience

JULY 2024 - PRESENT

Founder & Solo Developer

Hella Studios, LLC Seattle, Washington

Designed and implemented core gameplay, combat, AI, and UI/UX systems in Unity for Blade Blitz, a local multiplayer sword-brawler.

Created character art, VFX, and iconography to establish a cohesive, recognizable visual design language across gameplay and branding.

Selected to showcase at Emerald City Comic Con 2025 and Seattle Indie Expo 2025, highlighting industry recognition for design and polish.

MAY 2023 - PRESENT

Visual & UI Designer

Clockwork Labs Remote

Led the visual and interface design direction for BitCraft, a large-scale MMO, defining UI systems, iconography, and in-game HUD art consistent with gameplay and brand goals.

Collaborated with art, engineering, and leadership to establish pipeline from kickoff to implementation across Unity and marketing.

Designed motion graphics for the game's alpha trailer, showcasing interface transitions and interaction flow.

JANUARY 2022 - MAY 2023

Senior Visual Designer

Genvid Holdings, Inc. Remote

Directed the development of UI and visual design systems for interactive streaming titles (Walking Dead: Last Mile, Silent Hill: Ascension, Borderlands: Echovision Live).

Partnered with engineers to define scalable, web-based UI frameworks, ensuring brand consistency and technical feasibility.

MARCH 2021 - JANUARY 2022

Senior Visual & UX Designer

Captain.tv Remote

Collaborated with game asset artists, game designers, and engineers to design the UX and UI for Stream Pirates Alpha and Beta.

JANUARY 2020 - MARCH 2021

Senior Visual Designer

POP Seattle, Washington

Created interactive marketing emails, illustrations, and web pages for prominent clients including Microsoft, Xbox, Intel, F5 Networks, Target, and U.S. Bank.

MARCH 2016 - JANUARY 2020

Product Designer

Microsoft Redmond, Washington

Contributed as the visual and brand style guide lead for Microsoft Game Stack, defining visual guidelines for digital marketing and physical marketing materials, including signage, merchandise, and booth design for GDC 2019 and Game Stack Live 2020.

Designed the visuals of the Microsoft Game Bar, aligning it with the Fluent Design system.

Conceptualized and designed virtual reality home environment concepts.

JULY 2014 - SEPTEMBER 2015

UX Designer

Sinclair Broadcast Group Seattle, Washington

Collaborated with KOMO4 news station to design an internal CMS, Storyline, implemented across 233 Sinclair-owned news properties.

Education

JANUARY 2010 - JUNE 2014

Bachelor of Design, Interaction Design

University of Washington, Seattle

Internships: Designer at Amazon (2013)

Designer at Samsung Mobile (2013)
